An Equal Opportunity Employer

Indiana's non-seasonally adjusted unemployment rate for August is 4.0 percent, nine-tenths of a percentage point below the national rate of 4.9 percent, Craig E. Hartzer, Commissioner for the Indiana Department of Workforce Development, announced today. The number of Hoosiers employed during August 2001 was 3,009,000.

Indiana's August unemployment rate was lower than Illinois, 5.5 percent; Kentucky, 4.7 percent and, Michigan 4.6 percent. Ohio's rate was 4.0 percent.

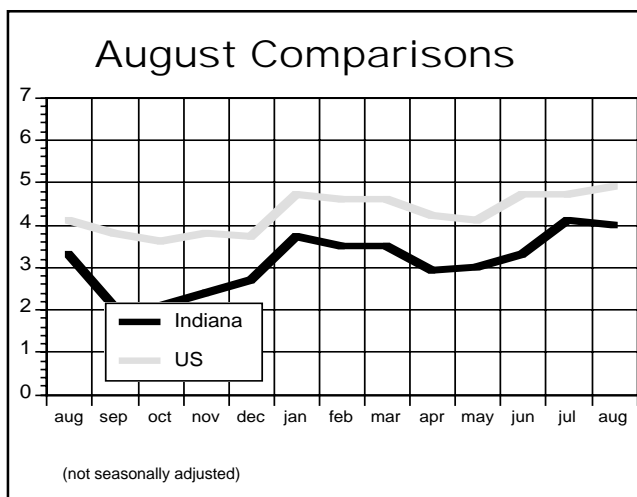

"Even though the nation and most surrounding states have a higher unemployment rate than Indiana, we are very concerned about the loss of jobs in every major industrial category over the past year. We are especially concerned about the loss of jobs in the manufacturing and construction sectors," commented Hartzer.

The monthly survey of 7,500 Hoosier employers reports payroll employment at 2,959,100, a decrease of 35,900 from one year ago. Payroll employment is an estimate of non-agricultural jobs in Indiana businesses. It differs from labor force employment which is used in the calculation of the unemployment rate by not including the self-employed and agricultural workers. In addition, payroll employment includes all those who work in Indiana, while the unemployment rate is calculated by those who live in Indiana.

Manufacturing employment totals 660,800 in August, a decrease of 30,700 from last year. Motor vehicle manufacturing accounts for 94,500 jobs, 9,000 less than one year ago. Manufacturing of motor vehicle parts totals 59,900. Industrial machinery manufacturing in August accounts for 70,500 Hoosier jobs, 1,000 less than July.

Construction employment totals 161,400 a decrease of 1,800 from last month. Of that, heavy construction reports 19,700 jobs, a decrease of 300 from July.

Service producing employment totals 2,130,800 in August, 4,900 less than last year. Transportation and public utilities total 148,700, 400 less than July.

(over)

Retail trade totals 557,400, 7,100 less than a year ago. Of that, general merchandise stores report employment of 80,300, or 2,200 less than last year. Service sector employment, such as business services, computer and data processing, totals 759,400 in August, which is 5,300 more than the previous year.

Indiana's estimated labor force (the number of people 16 years of age and older who are able and available for work) totals 3,134,900 in August 2001. An estimated 3,009,000 Hoosiers are employed and 125,900 are unemployed.

Indiana's labor force for August 2000 totaled 3,093,300. Hoosiers employed one year ago is estimated at 3,000,900, and August 2000 unemployed in Indiana totaled 92,400. Indiana's estimated unemployment rate one year ago was 3.0 percent, compared with the national unemployment rate of 4.1 percent in August 2000.\*

\*Due to an expansion in the Current Population Survey (CPS), mandated by Congress, estimates for June 2001 (revised) and later at both the state and substate levels may not be fully comparable with those of earlier periods. In analyzing data, be aware that over-the-year comparisons, may differ slightly from comparisons that would have been made using data without the sample expansion. More detailed information can be found at <http://stats.bls.gov/launews1.htm>.

## Industry Payroll Employment

Selected Categories	August 2001	Change from July 2001	Change from Aug. 2000
Goods Producing	828,300	-2,000	-31,000
• Construction	161,400	-1,800	-300
• Manufacturing	660,800	-200	-30,700
Service Producing	2,130,800	+7,600	-4,900
• Retail Trade	557,400	+1,600	-7,100

## Indiana vs. U.S. Unemployment Rates August 2001

		Not Seasonally Adjusted		
		August 2001	July 2001	August 2000
